Why Zoho?

In today's fast-moving business world, managing customers, sales, marketing, employee data, and operations manually is no longer sustainable. As your company grows, so do the challenges: scattered leads, missed follow-ups, delayed reporting, slow customer support, and unorganized employee records.

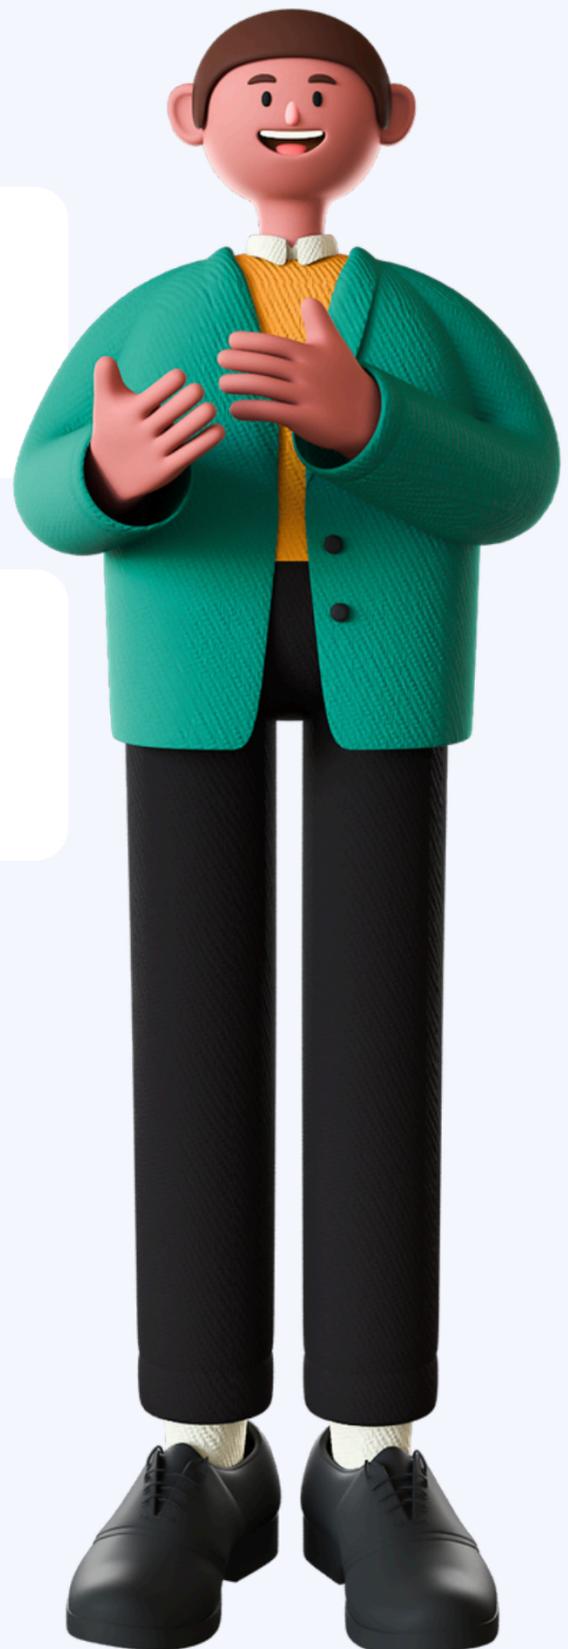

That's why businesses are switching to Zoho — a powerful suite of business applications like Zoho CRM, Zoho Books, Zoho One, Zoho People (HRMS), Zoho Desk, Zoho Campaigns, and more.

But here's the truth:

Buying Zoho is easy.

Implementing Zoho properly for your business is what makes the real difference.

When implemented correctly, Zoho becomes your company's central operating system.

Know Us

Cube Creations is a business technology and automation company helping organizations streamline their operations using modern cloud software solutions.

We specialize in implementing and customizing **Zoho applications**, CRM systems, HRMS platforms, and business automation tools that improve productivity, visibility, and growth.

Unique Selling Points

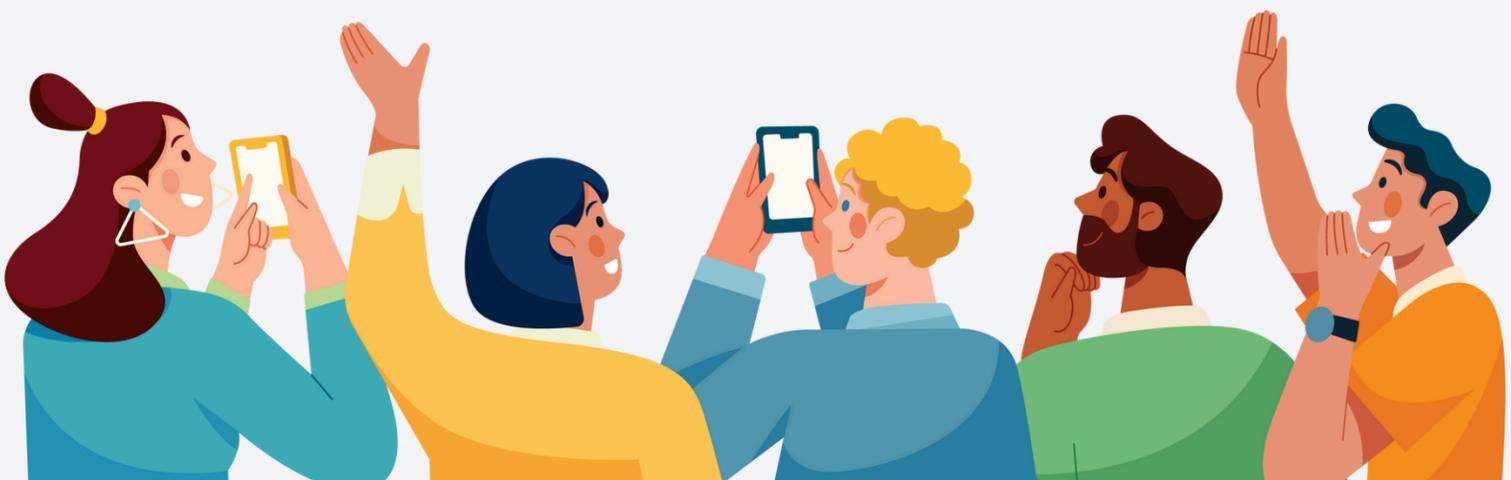

Experience: Our team brings years of hands-on experience in implementing and managing ERP solutions across multiple industries, ensuring we design systems that align perfectly with your business processes and growth goals.

Quality: We focus on delivering high-quality ERP implementations that are efficient, reliable, and scalable — helping you streamline operations, improve accuracy, and turn your data into smarter business decisions.

Our Focus

- Business process automation
- CRM & sales system setup
- HR & employee management systems
- Custom integrations & development

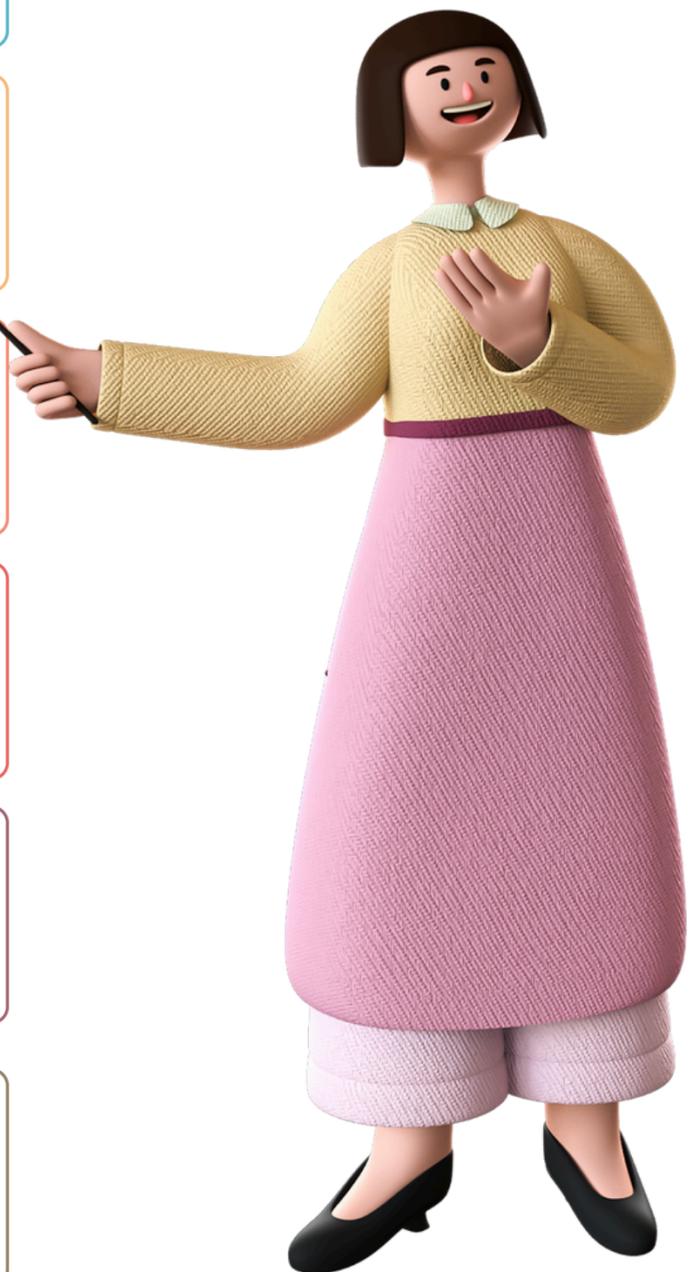

What Are Zoho Implementation Services?

Zoho implementation means setting up the Zoho applications based on your business process — not generic settings.

A proper Zoho implementation includes:

- Understanding your business workflow
- Creating a structured lead & customer journey
- Setting up modules, stages, pipelines
- Automating repetitive tasks
- Connecting Zoho with WhatsApp / website / email / payment gateways
- Creating dashboards and performance reports

When implemented correctly, Zoho becomes your company's central operating system.

Why Most Businesses Struggle With Zoho Without a Partner

Many businesses subscribe to Zoho but later feel like:

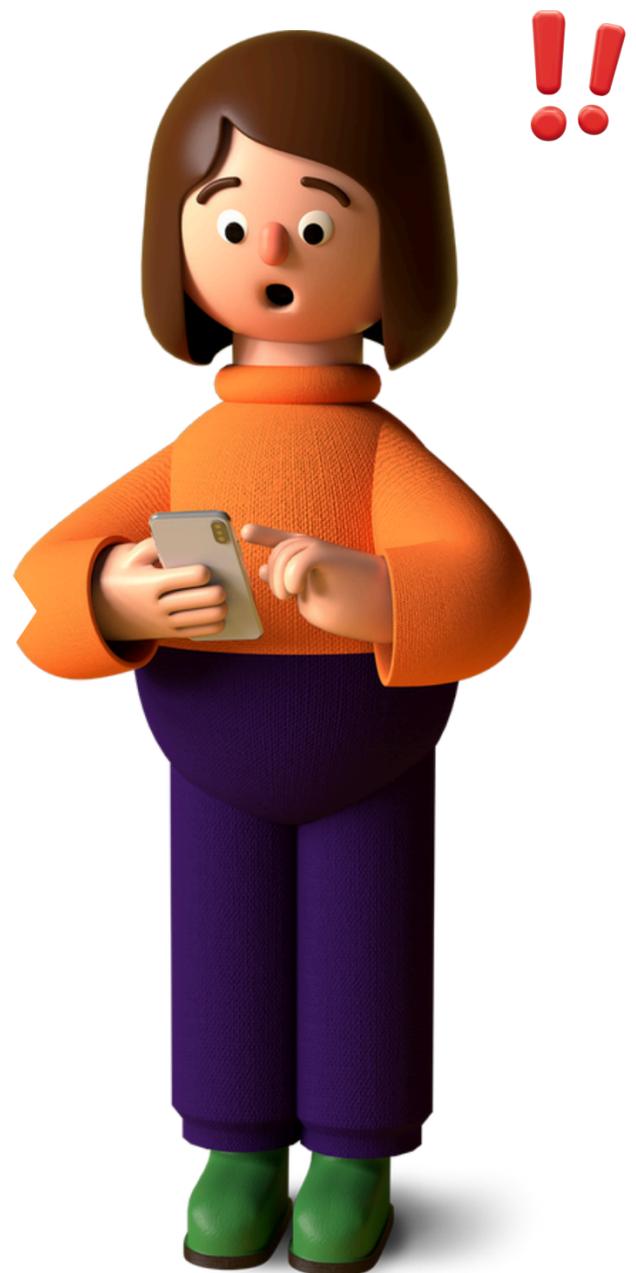

01 “It’s too complex”

02 “Automation is confusing”

03 “My team isn’t using it”

04 “Reports are incorrect”

05 “We’re still working in Excel”

This happens due to lack of **structured implementation**.

Zoho is highly flexible — and that’s both a power and a challenge. A professional implementation ensures Zoho fits your business instead of forcing your team to adapt unnecessarily.

Zoho Services We Provide

At Cube Creations, we provide end-to-end Zoho services:

1) ZOHO SETUP & IMPLEMENTATION

We configure Zoho systems from scratch or improve existing setups.

Includes:

- CRM setup (leads, deals, accounts, contacts)
- Role hierarchy & access rules
- Sales pipelines and stages
- Email setup, templates & workflows
- Blueprint process setup (for strict sales process)

2) ZOHO CUSTOMIZATION

Every business is unique — Zoho should reflect that.

We customize:

- Custom fields & modules
- Page layouts
- Forms
- Custom buttons
- Validation rules

Zoho Services We Provide

At Cube Creations, we provide end-to-end Zoho services:

3) ZOHO AUTOMATION & WORKFLOW

Automation reduces dependency on manual work and improves speed.

We help automate:

- Lead assignment rules
- Auto follow-up reminders
- WhatsApp/email triggers
- Sales approvals
- Customer onboarding flow
- Employee onboarding flow

4) ZOHO INTEGRATIONS

Zoho becomes 10x more powerful when integrated with your tools.

Common integrations we implement:

- Website lead capture forms
- WhatsApp Business API
- Payment gateways
- Phone calling system
- SMS/email gateways

Third-party tools via APIs

Zoho Services We Provide

At Cube Creations, we provide end-to-end Zoho services:

5) ZOHO DEVELOPMENT (DELUGE + APIS)

When you need advanced customization, we build custom solutions.

Includes:

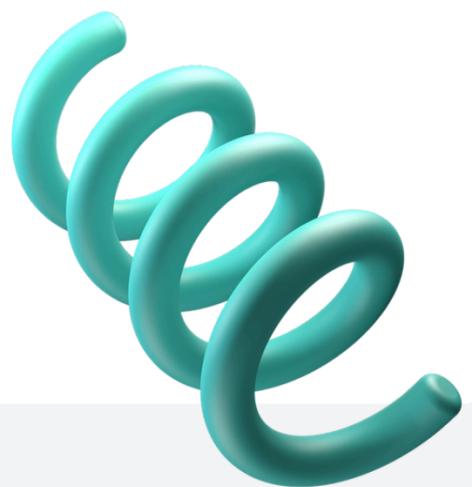

- Custom functions
- Deluge scripts
- API integrations
- Custom data sync
- Automation logic and third-party connections

6) TRAINING & SUPPORT

A successful Zoho project requires team adoption.

We provide:

- Admin training
- Sales team training
- HR team training
- Custom SOPs / user guide
- Post-go-live support
- Monthly maintenance support

Zoho Apps We Work With

We support implementation and customization for:

1

2

3

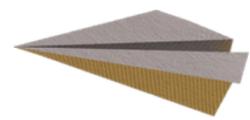

4

5

and more...

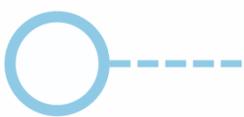

AUTOMATION DONE RIGHT. WORRIES GONE

Who Needs Zoho Support Services?

Our Zoho support is ideal for:

Startups setting up CRM for the first time

Businesses upgrading from Excel/manual tracking

Sales teams needing automation & structured pipeline

HR teams shifting to digital HRMS

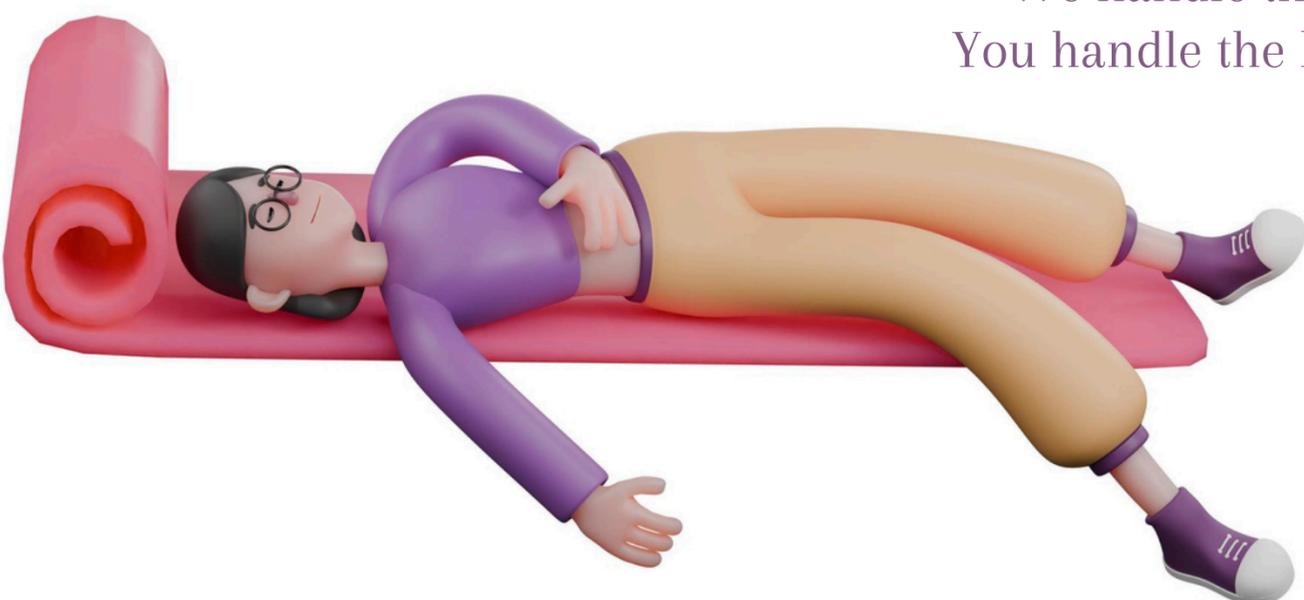

Companies using Zoho but facing adoption/feature issues

Organizations wanting external integrations

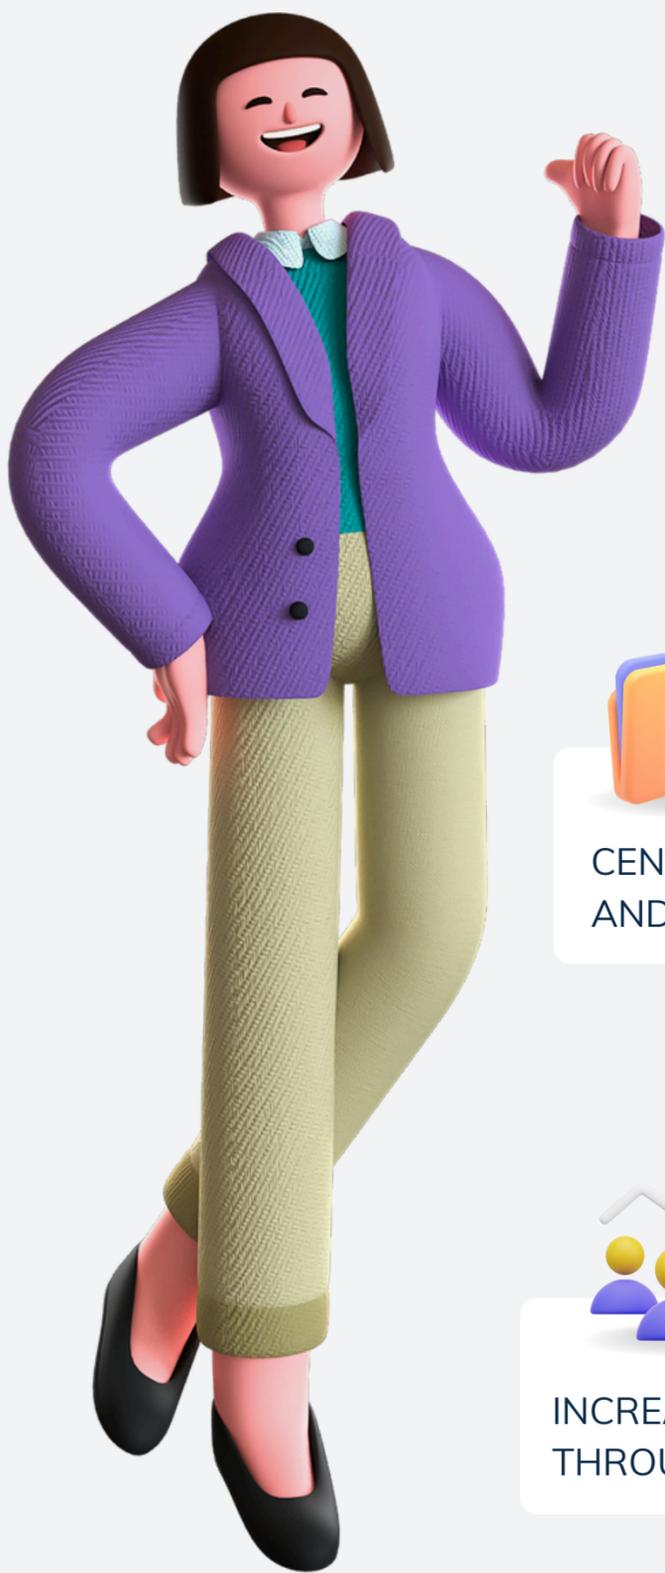

We handle the tech,
You handle the health.

Benefits of Zoho Implementation With Cube Creations
